

Electronics Tech

We are a small Brown Deer-based tech firm specializing in design, light manufacturing and installation of CCTV security equipment. We are seeking well-organized, energetic and motivated individuals with excellent communication skills to join our growing team.

Responsibilities vary, but will include soldering and repair of PCB and other CCTV equipment we service. The ideal candidates should have experience in the following:

Excellent soldering skills

Repair existing PCBs, including SMD components

Build CCTV cables and connectors

Troubleshoot CCTV cameras and DVRs

NVR (network video recorder) and IP cameras installation and configuration

Ability to think quickly and learn on the job

and more...

Send an email badger.tech.Intl@gmail.com and tell us how you can best contribute based on your experience (and/or schooling). Be sure to attach your resume & salary requirements.

VETERANS – we want to hear from you!

Proof of US citizenship or legal employment status is required.
